

2026 Weyl-Wigner Award

Call for nominations

Dear Colleagues,

We invite you to nominate distinguished scientists for the 2026 [Weyl-Wigner Award](#) conferred by the Standing Committee of the International Colloquium on Group Theoretical Methods in Physics ([ICGTMP](#)).

The purpose of the Award shall be to recognise outstanding contributions to the understanding of physics through group theory.

The Weyl-Wigner Award was created with the demand to recognise outstanding contributions to the understanding of physics through group theory, and continuing the tradition of the Wigner Medal and keeping its high standards of quality and excellence.

Contributions admitted by the Award may include the development and application of mathematical methods, applications of group theoretical methods in chemistry and other sciences, experimental predictions or formulations of general laws of nature using methods of group theory or representation theory, and other related developments. Group theory shall be construed in its widest sense, to include related mathematical structures.

The first Weyl-Wigner Award was awarded in Strasbourg in July 2022 during the ICGTMP [Group34](#) Colloquium.

Nominations should include name and affiliation of the nominee, together with at least a summary of their achievements that would be considered for the Weyl-Wigner Award.

More detailed nomination materials, such as letters of recommendation, may be requested later if needed.

The 2026 Weyl-Wigner Award will be awarded coinciding with the XXXVI ICGTMP (Group36), to be held in Valladolid, Spain, 13-17 July 2026.

Nominations may be submitted by e-mail to

Richard Kerner

Chair of the 2026 Weyl-Wigner Award Selection Committee

Richard.kerner@sorbonne-universite.fr

The deadline for the nomination of candidates is NOVEMBER 31, 2025.

The members of the 2026 Weyl -Wigner Award Selection Committee are:

R. Kerner (Sorbonne Univ., Paris, France, Chair); N. Reshetikhin (Tsinghua University, Beijing, China), P. Etingof (MIT, Cambridge, USA), Ch. Quesne (Université Libre de Bruxelles, Brussels, Belgium) and P. Exner (Czech Technical University, Prague, Czech Republic).

Please share this information with your colleagues.

Best regards

Mariano A del Olmo

Valladolid University, Spain
